

'ire' Phoneme Spotter Story

Pire the Old Vampire Squire

There once lived an old vampire squire named Pire. For many years, he had lived in the tall castle spire. Every morning, he would go down from the spire to look after his master, Jire.

Jire was two hundred years old and was ready to retire. He asked Pire, his squire, "What will I do when I retire? I have fantastic skills with fire and I'm even better with wire."

Pire said, "Have you thought about building the best bonfires? Every weekend you could use the wire around the shire to hang dazzling lights. Then build a bonfire for us all to admire, as you set fire to the wood."

Jire was so pleased with his squire that he told him he would retire right now and Pire can become the master.

Now Pire must hire a new vampire squire to live in the tall castle spire.
