## Counting squares

Count the squares in each shape to find the area.
A

B

The area is $\square$ squares.
C

The area is $\square$ squares.

The area is $\square$ squares.

Which shape has the greatest area? $\qquad$ -
2. What is the area of the shaded part of the shape?

The area is $\square$ squares.

3
Here is a kitchen tile.

a) What area of the tile is blue?
b) What area of the tile is white?
$\square$ squares
c) What is the total area of the tile?

These two shapes are made up of squares of the same size.

Who is correct? $\qquad$
Explain how you know.
$\qquad$Here is a rectangle.

a) The rectangle has $\square$ rows and $\qquad$ columns.
b) What is the area of the rectangle? $\square$ squares
c) How did you work out the area?

Find the area of each rectangle.

$A=$ $\square$ squares $\square$ squares $\square$ $=$ squares

Nijah and Eva are making shapes.
They each use 6 squares.

Nijah's shape

Eva's shape

The area of Nijah's shape is equal to the area of Eva's shape.

Is this true or false? $\qquad$ -

How do you know?
$\qquad$
$\qquad$
(8) What is the area of each shape?

area $=$ $\square$

squares

area $=$ $\square$ squares
