Directions:

Ask an adult to help you use the scissors safely.

Print the mask & colour it in before cutting it out.

Cut out along either the dotted line or the thick outline.

Cut out the eye holes.

Make a headband by cutting 3 x 40mm wide strips of A4 paper lengthwise and join them to make one long strip. Wrap it around your head, just above your ears and join it where it fits snugly.

Place some glue or double sided tape on the outside front of the headband.

While wearing the headband, line up the eye holes of the mask with your eyes and press the mask firmly against the glue or tape.
