

Mapping the States

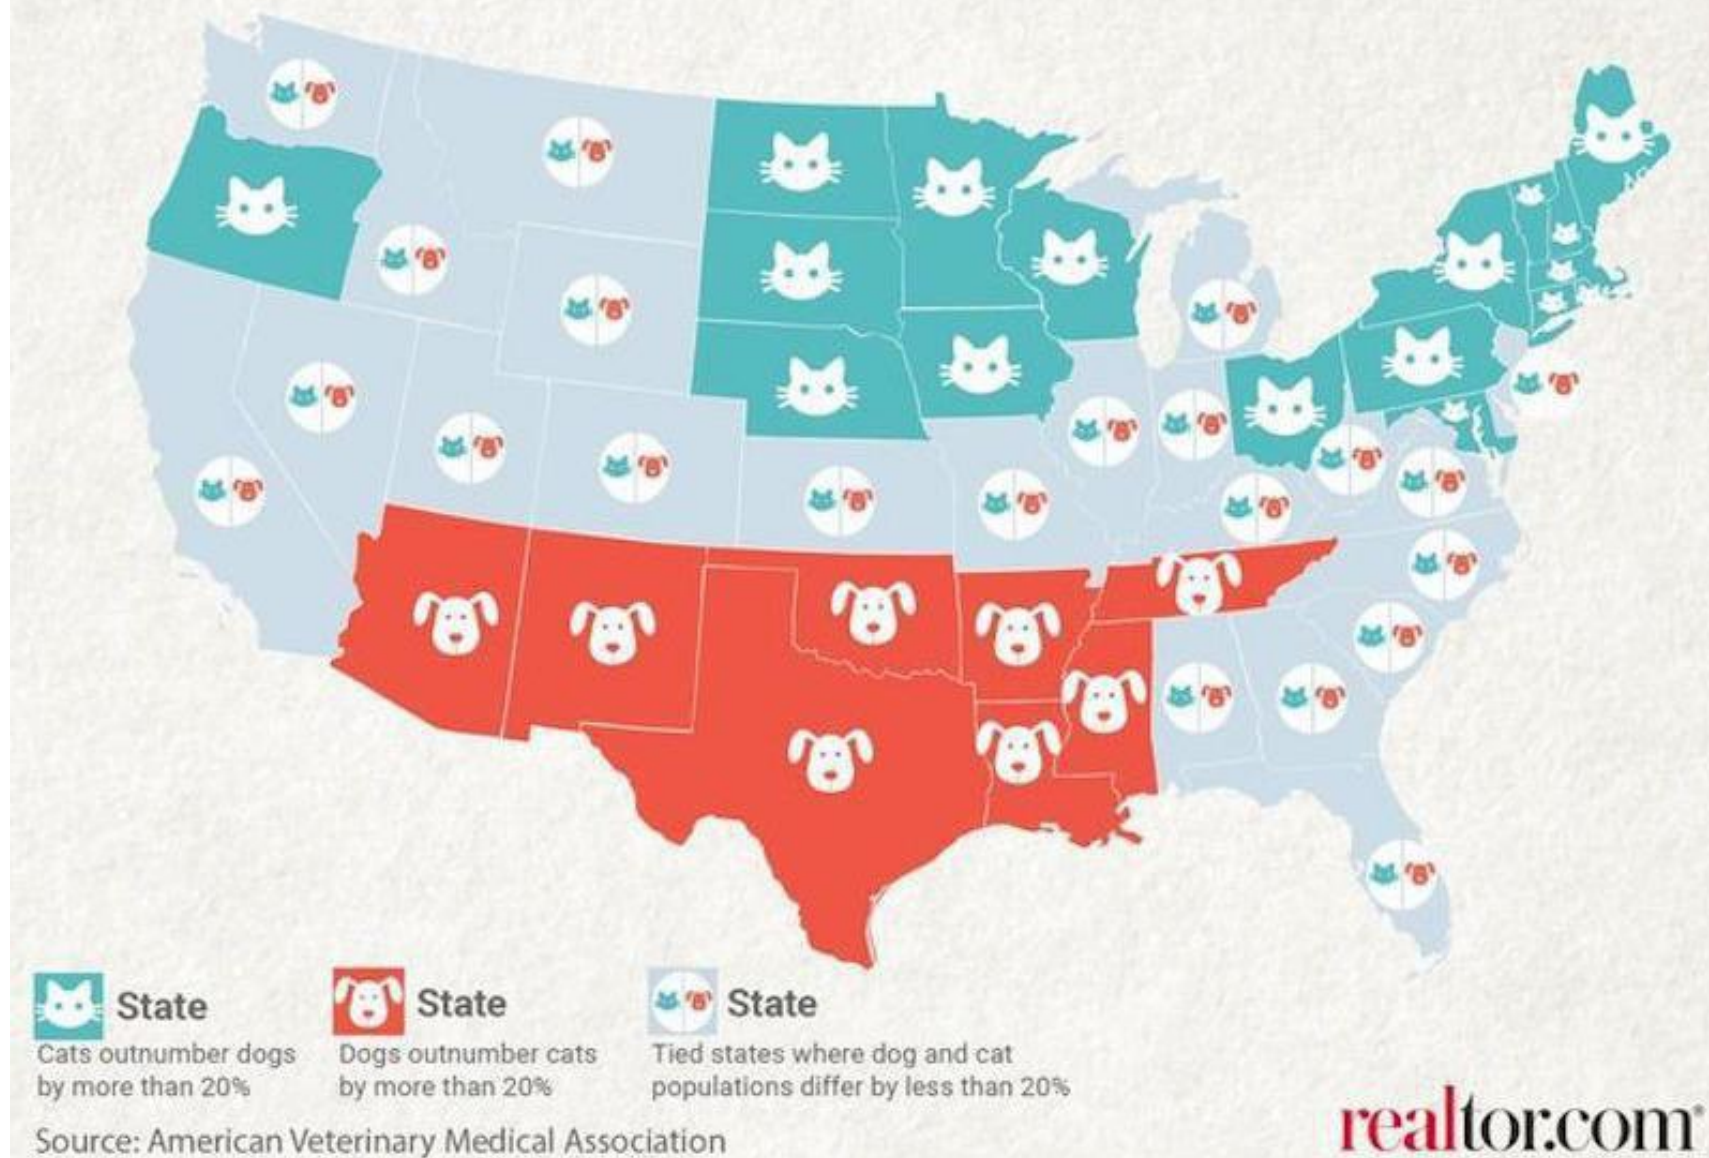

Have a look through these maps and use them to answer the questions

The first slide is the actual State Map, which may help you find the information about individual states.

I wouldn't advise printing this as it is a VERY big file.

Which Countries Invest in The United States?

How to read this graph:

Countries appear bigger as their cumulative FDI (2009-2014) in the USA is higher. e.g. United Kingdom
Conversely, countries that have a lower cumulative FDI (2009-2014) in the USA appear smaller. e.g. Brazil

US Immigration

The countries that supply the most immigrants to each state

Source: Department of Homeland Security, Giorgio Cavaglion

- Immigration to the US (around 500,000 immigrants arrive each year) is a source of population growth, economic stimulus, and social and political change.
- The states with the highest immigrant populations are California, New York, Texas and Florida.
- By state, excluding immigration from Mexico, Filipinos are the largest immigrant population in California, the Chinese in New York, the Indians in Texas and the Cubans in Florida.
