

Solve as many of these problems mentally as you can. Colour in the star each time you solve a problem in your head.

$76 + 9 = \underline{\quad}$ ☆	$150 + 40 = \underline{\quad}$ ☆	$360 - 22 = \underline{\quad}$ ☆	$700 - 85 = \underline{\quad}$ ☆
$648 - 22 = \underline{\quad}$ ☆	$754 + 55 = \underline{\quad}$ ☆	$86 - 34 = \underline{\quad}$ ☆	$150 + 160 = \underline{\quad}$ ☆
$500 - 120 = \underline{\quad}$ ☆	$1100 + 572 = \underline{\quad}$ ☆	$276 - 52 = \underline{\quad}$ ☆	$2500 + 600 = \underline{\quad}$ ☆
$700 + 900 = \underline{\quad}$ ☆	$4444 - 4321 = \underline{\quad}$ ☆	$2000 - 550 = \underline{\quad}$ ☆	$95 + 27 = \underline{\quad}$ ☆
$10,000 - 3500 = \underline{\quad}$ ☆	$12,000 + 8500 = \underline{\quad}$ ☆	$7700 + 386 = \underline{\quad}$ ☆	$9422 - 500 = \underline{\quad}$ ☆
$54,600 + 12,000 = \underline{\quad}$ ☆	$76,900 - 31,500 = \underline{\quad}$ ☆	$125,000 + 17,000 = \underline{\quad}$ ☆	

Solve this addition grid. Only write down answers that you can work out mentally.

+	50		12	5000		
	149	219			739	
275						370
	3161			8111		
		10,220				
15,400					16,040	

Solve these addition and subtraction calculations. Show your working out.

$1675 - 824 =$

$7658 + 2194 =$

$8712 - 3769 =$

$12,603 - 4778 =$

$26,873 + 76,031 =$

$143,872 + 387,105 =$

Use formal column addition and subtraction to solve these calculations.
