

Can I add by making 10?

Steps to success:

- I can understand that a full ten frame doesn't need to be counted individually
- I understand the process of partitioning

I The ten frames show that $6 + 7$ is the same as $10 + 3$

Draw counters to show that $5 + 6$ is the same as $10 + 1$

2 Complete the additions.

Use ten frames to help you.

a) $8 + 3 = 10 +$

b) $9 + 7 = 10 +$

c) $7 + 5 = 10 +$

d) $6 + 8 = 10 +$

3 Use number bonds to complete the additions.

The first one has been done for you.

$10 + 5 = 15$

b)

$$10 + 3 = \square$$

c)

$$\square + \square = \square$$
