

This what I already know about life under the sea.

Sharks, whales, orcas, dolphins, squid, colossal squid, giant squid, octopus, crabs, penguins, submarines, sea cucumber, narwhals, kelp, coral, hammerhead sharks, starfish, sardines, puffer fish, turtles, light zone, twilight zone, dark zone. Octopus have 8 legs. Some creatures are right at the bottom of the ocean. Jelly fish octopus, seaweed and sea plants, sea snails whales, volcanoes at the bottom of the ocean in some places. Octopus, fish, shark, seaweed, wet, light, the Octonauts. Lots of animals can swim very fast. There re fish who make black ink. Some sea creatures can also go on the ground. - Alligators. Sharks live under the sea. Fish breath in the sea. Coral polyps live under the sea, coral polyps don't have any teeth. Little fish live under the sea. Crabs are pinchy. There are pirate ships and shells.

The questions I would like to ask and explore about life under the sea.

Tsunami waves, under the sea volcanoes, sea trenches, what do sharks hear? How does a jellyfish sting someone or something? How do angler fish put their light on? How does the shark gobble fish up? How does a fish breath? How do animals' breath? How do they drink? How do they eat? How do they know when time it is? Do fish stay with their families? Can turtles swim? Where does seaweed come from? How do animals live in the sea? What do they eat? Do all animals under the sea eat seaweed? Do animals sink? How do they float? How many sea creatures have tails. Whale sharks don't use their teeth for eating so what do they use their teeth for? Why does a colossal squid have a triangle on its head - and giant squids too? What do coral polyps use their tentacles for? What do sharks eat? Are dolphins friendly? What do whales eat? Learn all about other fish tropical, marine and deep sea. How many teeth do shark have?

I would like to role play animals from under the sea.

Be a shark, a whale, the waves. Starfish.
Jelly fish, octopus. A shark, an octopus, a fish. Fish swimming away from sharks. The Octonauts, a dolphin, a squid, a seahorse, a turtle. Seaweed, play mermaids.
To dress up as all the animals.

I would like to make related to animals from under the sea. Shark, whales, under the sea pictures, models. Starfish, draw an octopus. A mini aquarium, jellyfish, octopus.

Paint a Hammerhead shark, an octopus.
Make clay fish and paint them. A shark.
Make some animals. A submarine, a boat. A shark, a dogfish. A picture of a mermaid.

I would like to investigate and explore about animals from under the sea. Learn about angler fish, learn more about whales and sharks. Starfish, jelly fish, whales, and whale song. Sea plants, how do fish breath? What is it like under the sea? How was the sea created? How do fish breath under water. To meet a colossal squid, see frog fish hide in the coral. Dolphins. How many animals are under the sea? Where do fish sleep? What do octopus eat? What do crabs eat? How do crabs live? What's squid?

Reception: Summer Term part 1

Feedback forms for Under the Sea

13 forms returned

I would like to visit or meet in relation to animals from under the sea. Sealife centre, someone who works with sea animals, someone who studies the sea. Shoreham beach. An aquarium, hold a starfish or a seasnail, rock pooling, scuba diver. A dolphin. Zoo aquarium. Sealife centre.

I would like to share or bring in related to

our topic: my book - 300 facts about the ocean, shark book, shark toys. Gertie the mermaid. A book 'Octopus Garden' and play the Beatles song, Octopus Garden, Lost and found - the octopus' book. Book - The whale who wanted more. My octopus, shark book. Why do fishermen catch the fish? Soft toys and stickers. Pictures from my holiday aquariums.

My other BIG ideas are:

wildlife, Africa, sharks have pointy teeth. How litter and rubbish especially plastic is so bad for the ocean. - Someone swallowed Stanley. Animals can swim, mermaids, sharks. Go under water in a submarine. See some animals, go on a boat ride. Save the animals by clearing out the litter. Song Blippi - song about the ocean. Play a game - spot the animal.
